LIVING ROOMS

Your living room is one of the most important rooms in your house. It is not just a relaxing space that welcomes guests and visitors, it also serves as a home's showcase and focal point. And you probably spend a lot of time in it.

Since the living room is usually the first room that your guests see, it should be a space that reflects your style. The most popular decorating styles are contemporary, traditional and transitional. Lion Homes prefer a modern, contemporary look, so for those of you looking for more modern living room design ideas, here are some pictures to help inspire you.

BEDROOMS

After hard days' work you deserve to be pampered and treated with Royalty and for this need Lion Homes have planned your bedroom to captivate you from the very moment you step in featuring an opulent Master suite with wide view, expansive built-in wardrobe, and ensuite. Lion Homes believe bedroom is your personal retreat, the place you go to rest and recharge. While the bedroom is often one of the last spaces in the home to receive a decorative overhaul, it is one of the most satisfying rooms in the house to redesign.
